

Rexon Eye Treatment

DRY EYE ASSESSMENT

A one-on-one consultation with the optometrist focussing on your dry eyes, and to formulate an individualised treatment program to treat it.

Treatment options may include the Rexon Eye technology for all types of dry eye, the E>Eye IPL technology for Meibomian Gland Dysfunction or at home treatments for the eyelids and ocular surface.

The assessment will include a comprehensive dry eye evaluation with the Anteres, designed to analyse the quality of your tears and the health of your eyelids.

REXON EYE TREATMENT PACKAGE
